

HIGH PERFORMANCE UAV: HIGHER – FURTHER – FASTER!

**JOIN OUR
TEAM**

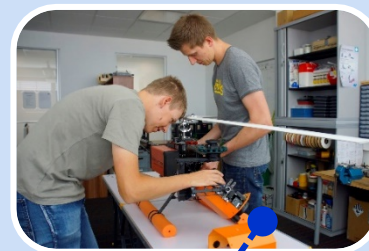

We do not just talk about it – we work on it. Would you like to play a leading role and work with us on future-oriented projects?

UAV-Pilot (m/f)

We are a start-up company based in Linz/Austria, which specializes in the airborne inspection on wind-turbines and industrial objects using drones. We developed the hard- and software for our services in-house. Aero Enterprise operates internationally, with the main focus on Europe. Our team consists of young, motivated and passionate technicians and economists.

You should have this skills..

- > **Mandatory: At least 3 years RC-model helicopter flight experience**
- > Experience in model aircraft design engineering (helicopter)
- > Graduate of university of applied sciences or technical university
- > Knowledge in mechatronics/electrical engineering/electronics
- > High technical understanding and manual skills
- > Willingness to travel - also for offshore operations
- > Independently, motivated, reliable, flexible and able to work in a team
- > Ideally 3-5 years work experience
- > Ideally pilot license (UAV, gliding, PPL)

Your daily job...

- > Preparation, operation and evaluation of inspection flights
- > Maintenance of aircraft and sensors
- > Development, construction and production of aircraft (mechanics, electronics)
- > Troubleshooting and error analysis
- > Approval of aircraft by aviation authorities

That's how we tick..

- > Professional but cool: short decision-making processes, joint breaks, team events
- > Career: internal and external training, more direct supervisor as mentor
- > Fulfill your talent and help shape the company with us
- > Independent work in joint projects
- > Flexitime and home office
- > Feedback talks
- > Modern office space

Working Hours, Place of Work & Payment...

- > Full time (38.5h)
- > Permanent employment contract
- > Workplace primarily in Linz
- > At least 2.500€ brutto (14-times)
+ overpayment with appropriate qualifications

I am excited to get your application documents by e-mail or just call us:
