

Aero Enterprise is a company based in Linz/Austria, which specializes in the airborne inspection of wind turbines and industrial objects using drones. We operate internationally, with the focus on Europe. Our team consists of young, motivated, and passionate technicians and salespeople.

To reinforce our team at Aero Enterprise in Linz, we are looking for a

Front-End Web Developer (m/f/x)

Requirement profile

- 3+ years' experience with JavaScript and modern frameworks (jQuery, Angular,...)
- Experience and/or strong interest on UI/UX design
- Passion for modern web technologies (HTML5, CSS,...)
- Proficient understanding of code versioning tools, such as Git
- A strong self-starter, operationally focused, a problem-solver

Great, but not a must

- Full Stack experience
- Basic IT knowledge (Network, Linux,...)

Your role within the company

- Building up an interactive data visualization
- Optimize existing code for peak performance and create dry and reusable code for future use
- Tight cooperation with the whole team, where you can try your own ideas

What we offer

- A young, dynamic, and professional team
- Flat organization structure with independent work
- Flexitime and Home Office options
- Yearly gross salary from EUR 45.000,-, overpayment dependent on qualifications and experience
- Full time (38.5h) with workplace in Linz, Austria

We are looking forward to your application!

Aero Enterprise GmbH
